

An aerial photograph of Gatwick Airport's tarmac and runways. Several commercial aircraft are visible, including a large white Airbus A380 in the center, a smaller white aircraft to its left, and a red and white aircraft in the bottom left. The background shows the airport's infrastructure, including a control tower and various buildings, surrounded by green fields and distant hills.

# One of Europe's biggest airports, growing by innovating

Robust investment programme – Over \$2bn invested since 2009, continuing with more than \$250m capital invested annually

Europe's 7<sup>th</sup> biggest airport

The world's number 1 long haul, low cost airport

The most productive single runway airport in the world

Positioned in the wealthiest catchment in the UK

Gatwick's investments have focused on maximising efficiency and creating a world class passenger experience

Process and Technology

We've analysed and enhanced all areas of the passenger journey

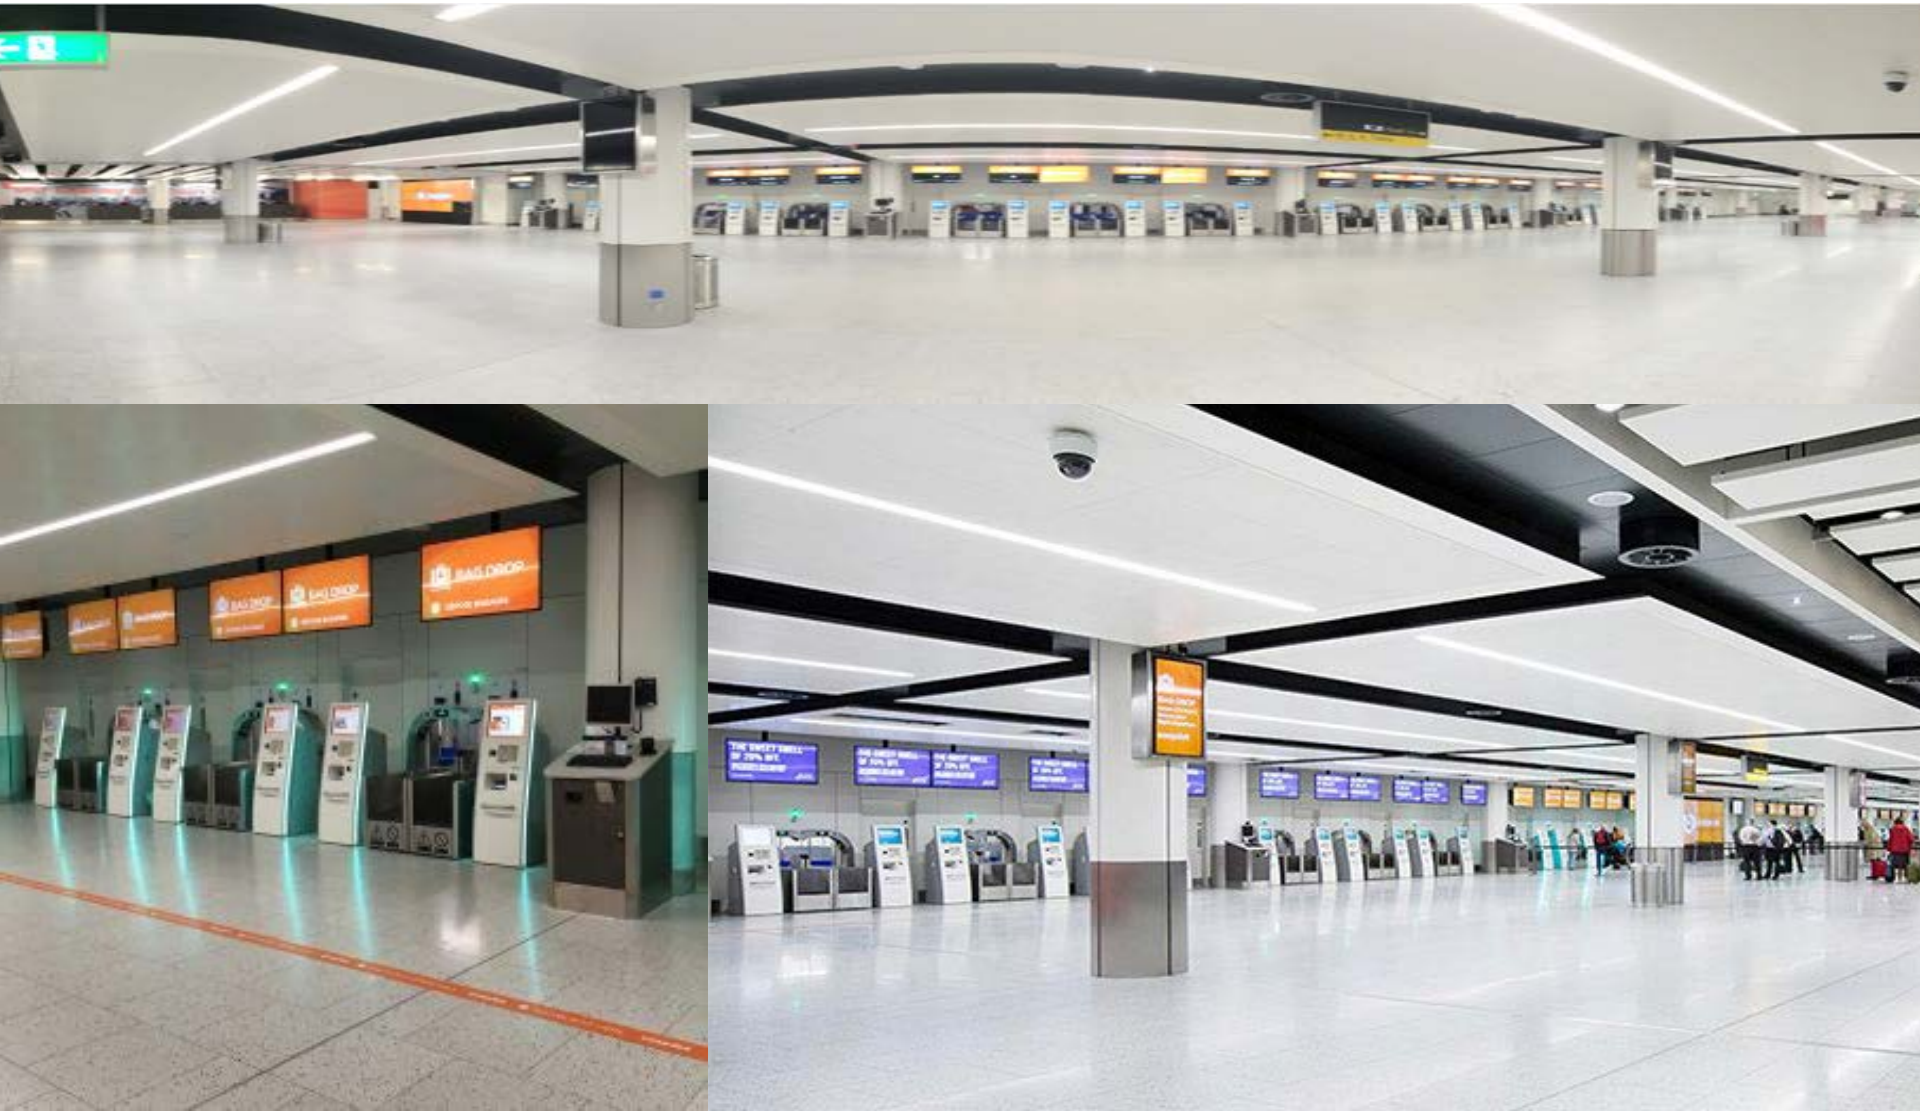

We've transformed the passenger experience by investing in ground-breaking technology in our public areas

We created the world's largest self-service bag drop for easyJet, reducing queue times to under 5 minutes

# GatwickConnects – facilitating self-connections between most airlines, including low cost
